

VICE PRESIDENT
AL GORE

DSCC ■ 120 MARYLAND AVENUE, NE ■ WASHINGTON, DC 20002

The following resources were saved by using recycled paper in combination with environmentally responsible manufacturing methods, including certified wind power and printing with soy ink.

288	13,519	26,619	122,187	203.74
trees	pounds of solid waste not generated	pounds of net greenhouse gases prevented	gallons of wastewater flow	million BTUs of energy

Environmental impact estimates calculated using information from Environmental Defense Fund and paper manufacturers.
